

## Animals Asia thanks You from the bottom of our heart!

Dear Team of **Stichting Save the Moonbears**,

thank you very much for your **generous donations of a total of 1.570 €**, which is currently even getting doubled! We are delighted to have such generous people as you as our loyal supporters.

Today, a little sun bear named Aurora will play and wrestle the day away with her new brothers and sisters. And tonight, she will snuggle down in her cosy nest, her tummy full and her heart happy.

Her 15 years in a cage behind her, now Aurora has the home every bear deserves... **all thanks to you.**

We are particularly proud of this wonderful cooperation which has been going on for ten long years.

What a wonderful friendship and what a precious support, especially **thanks to the irreplaceable Ciska the Hilster!**

Whether we are denouncing atrocities, or running our rescue centres, or educating people about animal rights, or again influencing the government and raising funds, our work never stops.

**And it would not be possible without such dedicated animal friends like you, dear supporters from all over The Netherlands!**

I would like to conclude with these words from Jill, who won the Hong Kong Women of Hope Awards two weeks ago:

*"We feel so privileged to be supported by a network of compassionate people around the world who reject cruelty and do what they can to end it. This award also applies to them. Without them there is no Animals Asia. I thank you all with all my heart. "*

**Once again a big thank you from our whole team and of course from lovely Aurora!**

Bear hugs,

Mara
